# All-In-One Al Suite For SNF Transformation

## **Unified Data Platform & Al Engine**

★ Aggregate all your data sources—EHR, census, billing, HR, and more—for a single source of truth.

## Real-Time Insights & Predictive Analytics

★ Access performance dashboards, quality measures, risk alerts, and predictive trends.

### Care Management (Lia)

★ Lia automates care workflows, flags documentation gaps, monitors condition changes, surfaces risk alerts in SNFs including In-EHR overlays.

#### **Admission Assessment**

★ AI-Powered SNF admission decisions in under 60s with PDPM accuracy, compliance checks, and EHR integration to boost revenue and reduce risk.

### **Change Monitoring**

★ Continuously monitors documentation, vitals, and notes to detect early changes in resident conditions – In-EHR Integration via Lia.

## **Al Agents For Every Role**

→ Purpose-built Al agents for SNFs automate and enhance critical workflows outside the EHR, including admissions, case management, QAPI, survey readiness, family communication, and administrative operations.

## Frequently Asked Questions

What systems does Post-Acute Skilled Nursing 365 integrate with?

Our platform is EHR-agnostic and supports seamless integration with leading SNF systems (PointClickCare, MatrixCare, etc.), HRIS, billing, and custom sources.

> How does the scribing agent work?

Our scribing AI captures and structures clinical conversations in real time, reducing documentation burden and improving accuracy.

- > How quickly can we be up and running?

  Go live in 60 days or less. Some features live within a week, with full onboarding support.
- > Is data secure and compliant?

Absolutely—Skypoint is HITRUST r2 certified and built for HIPAA compliance.
