Your
24/7
AI Workforce

Unified Data Platform (UDP) & AI Studio

- Integrates 50+ senior living core systems, applications and data sources
- Unified Data Model (UDM) for clinical, financial, operational, and engagement data
- AI Studio for managing data, AI agents and security

AI Command Center & Applications

- **AI Command Center:** One AI-powered app that connects all your data, systems, analytics, AI agents and workflows. Customized by role with home office, community, and family-level access controls
- **Care Management:** In-EHR / app overlays, clinical insights, population health, alerts, care gaps, fall risk and chart reviews
- **Occupancy Management:** Real-time census, market data, vacancy risk prediction, actionable AI recommendations to increase occupancy
- **Labor Optimization:** AI-optimized labor and cost management - schedules, predict turnover, efficient workforce management
- **Resident & Family Engagement:** AI-driven communication, satisfaction tracking, family portal, AI scribing (resident interviews), automated follow-ups

Analytics & Copilots

- 200+ AI-powered pre-built and custom KPIs, reports and dashboards
- Predictive & generative AI analytics and copilots to ask questions about your unified data and predictions

FAQs

> **Can Skypoint Senior Living 365 integrate with our existing systems?**
> Yes, with bidirectional interoperability for all major systems, apps and data sources.

> **How quickly can we be up and running?**
> Go live in 90 days or less. Some features live within weeks, with full onboarding support.

> **Is our data secure and private?**
> Absolutely. HITRUST r2 certified for healthcare-grade security and privacy.

> **How do we measure ROI?**
> Tailored ROI modeling, business outcome reviews and customer references provided.
